Summary

I plan to continue honing my skills as a respected Quality Engineer in my field. I would love to apply my knowledge of Test Automation to all areas and transition to an SDET role.

Check out my blog here <https://beardedtester.substack.com/>

Experience

Senior Test Engineer I

Zotec Partners

Aug 2021 - Present (1 year 4 months +)

Senior Quality Engineer

DMI (Digital Management, LLC)

Mar 2020 - Aug 2021 (1 year 6 months)

Built out automated test suites, trained teams on best practices, led PoCs on new tools & helped design a modernized test strategy approach for a global organization.

Quality Assurance Engineer

Viral Launch

Sep 2019 - Mar 2020 (7 months)

Designed and developed automated tests for brand new and existing features.

Evaluated and worked up API tests using Pact.io and ReadyAPI.

Transitioned manual tests from a checklist to the Test Management suite which improved visibility.

Test Engineer

Fusion Alliance

May 2019 - Sep 2019 (5 months)

Writing Automated scripts and adding functionality to the test Framework written in Javascript

Building out new suite of tests created with Cucumber

Test Analyst

Fusion Alliance

Apr 2019 - May 2019 (2 months)

Mobile app testing across iOS and Android

Software QA Engineer

Prysm Systems

Jun 2016 - Feb 2019 (2 years 9 months)

Worked on 2 sprint teams in an Agile environment testing both software and hardware solutions.

Researched and proposed a new Test Management tool to utilize for both our local and offshore teams, which improved quality, and led to more timely releases. Below are some of the tasks performed on a day-to-day basis.

- Requirements analysis
- Test case creation
- Test case management
- Coordinating with Product and Dev to ensure product integrity
